Millet, Grante, Grant county, L. Ford Briggs, Wasco county J. W. Hayes, Atwood, Morrow county J. W. Sworea. Almans, Umatilla county, S. C. Craft. Excepting the first named the predecessors of the appointees all resigned. O. T. Cresak has been appointed post master at Ganyon Oity vice Louis Covad resigned on account of lithesith.

prision bills and the messure reported from the committee on agriculture providing for the erection of a department of agriculture and labor. There are four appropriation bills now upon the calendar—the Indian, military academy, diplomate and consular, and pension. None of these measures are likely to give rise to extended debate, except possibly the diplomatic and consular bill. Owing to its radical change as compared with former bills and its increased appropriations, this measure may become an object of attack. Nearly all of the measures which have been made special orders are likely to be present or action at the first opportunity that may offer when the house is not engaged in consideration of the appropriation bills bill for the creation of a described of a griculture and labor already mental to a griculture and labor already mental to the state of the contraction of the superior of the superior of the next of the superior of the next of the superior of the next to the next of the

Throughout the target arile of the land the behind from the curri than of scattes in the public schools.

Throughout the target arile of the scattes in the public schools are controlled in the interest of the scattes in the scatte of the schools and note of the schools conducen of harber defenselessness they c ald destroy a vast amount of valuable property by bombarding our seaports, like New York, Hes-ton, Portland, Me. Philadelphia, Buttimore, an Francisco and New Orleans And once in troduce a light British ironciad, armed with heavy gune, into the great lakes and Buffalo, Cleveland, Detroit and Chicago would be at the mercy of the enemy, whose guns have un effective range of at least five miles, and under favorable

Among other measures whose passage is urgently needed are the bills for the reform of the land system and the land forfeiture bills, which, the New York Herald says, "by the offerts of Senator Bolph and other railroad senators, were prevented from passing at the last

The strange pretense of the mugwump press that the preedent is a noble-hearted reformer of the civil service who is misled by bad men is rebuked by the New York Il orld, the greatest rebuked by the New York Horld, the greatest democratic paper of the country, in these words What is the sense in continuing to represent the president as being led into actions the meaning of which he very well understands? Baitimore is so near to the capital as to be virtually within the range of the president s vision. For two years be better class of democrats in Waryland have protested against Mr (leveland a practice of recognizing Senator Gorpha as the boss' of their state. The Maryland Civil Service Reform association has toined in and given sharp point to this clation has joined in and given sharp point to this protest. And yet the combs case shows that the senator who mak s no concendent of his contempt for reform is still conducting his spoils but ness at the old star late die the old way. He is at least straghtforward and unbypure theal and should not be blanuch for taking the spoils that are liven to him.

We submit to the estermed Tria that the to blame for the circ pentily as fenthereform principle. The president has treated them with primerile. Their result it has treated them with more deference in the has shown his own party. And for the most part, they have praised every thing, he has done or or leved him in such a fingerly fast in that he has found encouragement to do just as he pit i ed. In Maryland as Indhuna and other states there has been practically a clean sweep of the offices and the spoilsmen have been into full sway. If the independent and new main indires and organization that reliked this in consistency as I desert there would have been faw a reast safe it sool hid for it in the High in Thomas Seriba before and for it to bring contempt upon the cause of referral makes of the president expressions of worder as to make the president

FORTIANO Jan 1

TO THE EDITION OF THE CHEGONIAN

The attention of the logislat re soon to convite should be called to the fact that very lark; is 1 simpley are continually beits, appropriated and sent out of the state that 1 ight much better be spent in employing workmen and building up in dustries here.

I desure now to give one instance only which forebly suggests itself as peculiarly detrimental to the best interest of the state at large. It is this That the work of printing and building, our statutes and reports of eases declided in the supreme court.

weman suffragist should be with the facts, not with The Oregonian for stating them. The argument that this view of a woman a position did not prevent her entranchiaement in Washington territory has no bearing, succe woman suffrage there was granted by the legislature, beyond all d util in opposition to the views of a great ma rity of the male order. No person of sound judgment in the territory supposes that if it were now etto a vite it would receive the assent of one marter of the men in the territory, or a much greater proportion of the woman. If therefore woman suffrage is to be maintained, even in Washington, a broader beals must be laid for it. This menus that woman must come to be regarded as man a hroader beals must be laid for it. This menus that woman must come to be regarded as man a state as the equal in responsibilities before she will be regarded as his equal in rights and privileges and it is quite as difficult to impress this upon wom that is quite as difficult to impress this upon wom that the printing done for the state cought to be done within the state is just and sound. Books, statutes and suprems court reports can be printed here just as well as in California or elsewhere. It is an important leaduring the properties of the state is of the state of the

take similar ground. There would be endlers and acrimonious controversy And where would be the Jew, and the Spiritualist, and the non-religionist? Our people generally, as cept a portion of the Catholics, appear to apprehend the difficulty, and, therefore, are withing to have the schools go on without at tempting the department of religious instruction. Necessarily our Catholic brethren—those for when Mr. Walls analysis would inside

on Catholica would not allow this for their thildren, the only alternative would be to divide he public schools on lines of religious faith, letting up Catholic schools, Methodist schools Jewish schools, Presbyterian schools, Spiritual ist schools, Hoptist schools, Rationalist schools, and divers others, including schools for those children whose parents would allow them to have no religious instruction whatever Inis, it is unnecessary to say, would be the death of the public school. Any attempt to make it part of the duty of the schools to give religious in struction would lead to divis on and subdivision that would destroy the system. The state could Christianity is a term of very wide applica-

of Christianity, and Catholies wouldn't wint the Protestant version of it Our esteemed friend of the Catholic bent of regards Protest answers the bane of the word, us the so nos of all evil. Nih lieu and anarchy, he wrote not long ogo, "are the offstring of Protestant philosophy." Again. "The whole crop of modern revolution, organized consumacy, meral laxity, crime, materialism and spiritual deep in in the fruit which the seed crim, of the Re-"Anarchism and the Reformation had their birth upon the same soil." and the

receium possession and armp, the laborer a degraded slave, and has prepared them for the socialism and anarchy that are now upon us In Mr Muniy's opinion, therefore, it would be immensely better for mankind had Protestantism never existed. And since he believes it to be the great paramount curse of the world, of course he could not talerate for a moment the idea that are ignor so falsa, spurious and pernicious should be taught to the young as fareful of a system of public education. Hence tians (nominally at lensi), and though we should call our achools thristian schools yet

From this view of the case we should suppose church, insisting that religious instruction must be given in the schools, and being b unit principles of evil, would then be thun talen to

THE CONDITION AND PROSPECTS

Discipline and Deportment-Olasses and Studies-Financial Condition—Buildings—Improvements -Library-Honorary Dogrees-Bto.

To the Henorable, the Governor of Oregon —I have the nonor to report to you, as required by law, on the condition of the University of Oregon and the transactions of the regards during the year coding June 30, 1886.

On the remeal question of the condition and prospects of the university I may repeat what was said in my last report. The year has been done or the commable prospectly an well done and management of the school seem assured that its future is upward and onward, and that the day is not far distant when the people of Oregon will regard the University of Oregon as their chief they and its diploma as a patent of honor. And to this and the regents and the faculty have worked heartily and panied to the public STUBENTS—ATTENDANCE. STUDENTS-ATTENDANCE.

feasily it appears that the attendance was as fel-liows.

There were enrolled in the collegiate department during the year 135 students two of whom were sent to the preparatory department. The number of students attending the several terms and the respective number of men and woman and are are and free scholars among them and the areas First term, ebrolled 120—men 74 women 46 pay 180 32 women 22, total 54, free men 42, women

set 20 womber to work of the state of 234, women 141, 401.
Yeard, average enrollment—men 1314, women 191, total 251, men 1314, women 191, total 251, men 1314, women 111, total 361, total bips.

In the preparatory department C3 persons were nrolled, ten of whom were advanced to the col agiate department at the beginning of the second erm. The attendance at the first term was 6 at he second 60 and at the third 27 the average benefat.

the second so and at the third of the average beling 44%
DISCIPLINE AND DEPOETMENT
The president reports the attendance good except in the case of a few students who are inclined
to absent themselves on frivolous excuses. He
says much earnest work has been done during the
year, and the new students are of a superior
grade. The students have been generally order
is. A few cases of insubordination have occurred
and one of expulsion and another of suspension
stanting rines and the like have had a bad effect
on the majority of students who have attended
them. The faculty bave adopted a rule prohibiting
the attendance of students at rinks and public
dances? and "dancing clubs"
The members of the faculty have been requilar in
the disolarge of their duties, except Prof. dondon
who was absent from his classes about ten days on who was absent from his classes about ten days of account of liness.

In closing his report the president says I regret to inform you that a meddlesome spirit, in reference to the management of the university has manifested itself during the past two years on the part of certain citizens of Eugene. There appears the an impression that the university is purely a local institution. There has been a marked disposition to foster discontent among the students and to violate the rules of the faculty and thereby impair its authority. Students have been advised to break the rules, and the removal of at least two of the members of the faculty has been threatened during the past year.

DEATH OF ALUMNI

ACQUADIAN BURNING OF USO GOCCASED

NAMING THE NEW BUILDING AFTER A BENE FACTOR—A CHAIR OF MUSIC.

At a meeting of the regents held in March the following preamble and resolution were unant mously adonted.

At a neeting of the reignits held in March the following preamble and resolution were unant moutly adopted of Henry Ullard d.d on April 25 1983, give the University of Oregon as an endow ment interest-paying bonds of the par value of \$20,000, and prior thereto did give it timely aid in money, amounting to over \$10,000 therefore be it Resolved by the Regents of the University That in consideration of the premises the college building, now near completion, he and the same is hereby named Villards Hall.

At the same meeting the chair of music was established and the professor thereof declared a member of the industry which chair D w Coolings was line apported which chair D w Coolings was line apported which chair D w Coolings was line apported on Latin and Latin literature and the same in the collegists of the control of the class or classes containing from lour to thirty-three persons each and averaging eighteen The studies laught were Latin rrander. Latin reader, Cicero, Crear Virgil, Livy Tacticas Roman history and Salust Neither the average standing of the class or classes is reported but in a scale of 100 the individual average ranges from 50 to maximum and generally between 80 and 90 Mark Railey, professor of mathematics and astronomy Laught even classes containing from eight for the control of the classes which i make 87% George W Collier professor of chemistry physics, taught seven classes, containing from eight for 100 that of the classes which i make 87% George W Collier professor of Chemistry physics, tought seven classes, containing from eight for 100 that of the classes of the classes containing the classes containing and physics, taught seven classes, containing from eight for 100 the control of the classes of the classes containing the classes containing the classes containing the classes containing the clas

gendies taught were mechanes chemistry physics, note, political economy Constitution of the United Bastes and optics. GENERAL REMARKS

In their reports the executive committee speak well of Mr Abrams the contractor and although his contract did not prove profitable, he did not shrink from its faithful performance.

The building is a credit to the state and a great gain to the university. The more contact with it will be an appreciable element in the educational influences that mould and fashion the character and tastes of the youth who attend this school.

Nor do I think if a matter to be lightly regarded in this connection, that this building has been completed within the appropriation therefor and without the suspicion of a job or illegal gain or profit to any one. And for this desirable result we are much beholden to the faithful and intelligent.

profit to any one shall be the selection of the property of the property of the profit of the factories of the recentive our mittee of the regents—Messrs T G Hendricks R S Hean and Rodney Scott

1806/EROINGS OF THE REGENTS

At the annual meeting of the regents, in June, the following proceedings were had

On the recommendation of the faculty authority was given to confer the degree of Bachelor of Arts on the graduates of the year namely. Ida Patterson, Jennie McClure Frank A Hader, Wm II Gove, Wm Ira Vawter Wm J Roberts and theo dissipations of the year of the profit of the year of the profit of the year of the profit of the profit of the year said the olissical course. The supply of wheat in sight in the 1 nited States (exclusive of California and Oregon) and Canala is given by telegraph Jan 3 as 72 429 860 bishels as in increase for a week of 45000 bishels. The failures for the year 1887 reported by the mercantile agoncy number 784 in California with 85 300 145 liabilities and 82 43 888 assets. The total for the Fracific coast is 760, with 85 822 171 liabilities and 83 18 470 assets which is a better showing than was made in any of the three preceding years.

London letters of Dec — comment widely upon the rise he breadstuffs, prices then hashing advanced _43s above the middle of October Australian wheel was scantily offered both because the crop was not promising well and because prices in Australia were some \$60s above the Enullsh level. This was taken as another factor on the vide of hidders for a large Astralian crop would mean liberal offerings from that colony in December and Juliury and free supplies later. Indian supplies rule light having been about 400 000 bushels per week on the average for the builed kingdom during October and November in apite of the abound ance of tonuse and very low rates. On Dec rule light having been about 400 000 bushels per week on the average for the builted kingdom during October and November in spite of the abund succ of tomus, e and very low rates. On Decitic quantity on passage from Russia was mly 120 000 bushels one correspondent holds that lumpe will want something like 2 000 000 bushels weekly from America for the next five to slx months. With repard to the probable extent of British stocks he thinks the January list state ment would show only 10 000 000 bushels against 000 000 a year previous. In connection with this it may be stated that the last Australian mail ad sloes lave a discouraging outlook for the Australian crop. In Queensland it was a complete failure rust having, destroyed all hopes of a yield. I from South Australia reports promised a six bushel average. The Northeastern crops and those in the I culburra valley promised a fair average. In other and important parts but weather had a forcing in fluence and had not been favorable to filling out wheat heads. In some districts in the North wheat on the plains was far from looking favorable. On the irrigated land the yield will be inarege but the acreage computed in the latter must not be forgotten is as yet small. Still the difference of four bushels to the acre on the dry land to thir ty five and forty on the irrigated indicates what can be done. Some symptoms of rust have appeared, but they have been mainly confined to poor soils or overworked lands. Crassboophers are numerous but the crops are too far advanced as a rule to suffer much from this infliction.

I RODUCE R-CEIFTS—These Friday noon 1 1000 cits wheat 2/3 bils flour 33 flocks ont 2/3/0 bildes 5.0 sks flaxeded 5.1 bogs. 7 cattle.

Bal nec on hand lune 30 18% \$ 4.4 42 N B The treasurer a balance is \$309.2 40 or \$3 02 less than this Three dollars and fifty cents appears to have been paid on warrant 744 instead of \$3 which increases his balance 50 cents. But for the remaining discrepency of \$2.5 I will not undertake to account. Doubtless there is an inno cent mistake somewhere

As appears by a statement furnished result ireasurer of state the condition of this fund on June 30 1888 was as follows

Amount loaned S71 708 00 2 300 00 Cash on hand 1 901 20

The assembly room of Villard hall was occuoied at the last commencement and afforded overy facility for the exercises and the comfort of the audit cace on that occasion.

The building was substantially completed at the faster-June 17-of the last regular meeting of the regents.

\$24 680 98 30 000 09 B lance
In addition, the regents on the recommendation
of the committee allowed the contractor \$250 for
false work which was paid and left the balance
of the appropriation \$2.085 92. Some additional
liems of expension have since been incurred in fursand, to exhabit the appropriation
Under the act of Rebrusry 12, 1825 (885 I p 18)
making the subject to the erection of the
building the bills incurred therein are paid by
warrant on the state treasurer crawn by the secretary on the presentation of the vouchers theremittee thereof
MATER HIPPLY—POMP S 2 LET 09

The pump being for the use of the old building so well as the new one the test thereof was all vided between the improvement and building funds as may be seen in the statement of disturbements. The well has proved a great success, and furnishes a boundless supply of good water, which with the aid of the pump can be thrown over the grounds and buildings with ease and dispatch. The executive committee say that before the permanent supply in the tanks on the buildings on the be exhausted steam can be raised and the pump put in motion
